

Scott Thompson
Managing Director of New Business Development and Director of Special Projects

Mr. Thompson is currently Managing Director of New Business Development and Special Projects for ACES Power Marketing (APM), in Carmel, Indiana. Mr. Thompson joined APM in 2001 as Director of Natural Gas. In his current position he is responsible for managing APM's Directors of New Business as well as APM's Special Projects that include the development risk management strategies and their implementation for member and customer portfolios.

Mr. Thompson has 25 years of experience in the natural gas industry. He has held various positions in financial trading, physical trading, risk management, financial structuring, marketing, and engineering. Before joining ACES Power Marketing, Mr. Thompson developed and managed Williams Energy Marketing & Tradings natural gas storage trading activities. Prior to working with Williams Energy Marketing & Tradings, Mr. Thompson held various positions within PG&E; trading financial basis, retail risk management, structuring, and marketing.

Mr. Thompson began his natural gas marketing career in Pittsburgh, where he worked for a regional marketing company. Prior to implementation of FERC Order 636, he aggregated regional producer's production and developed risk management products for them. After implementation of FERC Order 636, Scott also aggregated and managed small local distribution companies (LDCs) assets in the new deregulated market place.

Mr. Thompson holds an MBA degree from West Virginia Wesleyan College and a Petroleum & Natural Gas Engineering degree from The Pennsylvania State University.
